With more than 20 years of experience planning and managing business transition projects for corporate clients, Jordan has developed a uniquely effective approach to project management and all aspects of Commercial Construction. Combining his extensive expertise with an ability to engage with people of all disciplines and levels within the corporate environment, Jordan can seamlessly take charge of a project and earn the confidence of all parties involved.

Leveraging excellent leadership, communication and organizational abilities, Jordan can help you develop all aspects of your relocation strategy and oversee the full scope of your project.

Professional experience

Prior to joining ASI, Jordan was the Founder of San Diego Office & Modular design – a firm that specialized in the procurement and planning of office furniture solutions. During this time, Jordan successfully managed over 500 office furniture and light industrial construction and relocation projects throughout the United States, Canada and South America – including large facilities, start-ups, and consolidations.
